

## Internship Training Agreement

---

The purpose of the Internship Training Agreement is to establish a commitment to attendance and participation in the year-long Faculty Diversity Internship Program.

This commitment includes participation in the fall semester-long training program consisting of the orientation followed by five Friday workshops (3 hours each) and Spring semester-long internship with a full time faculty mentor, and the June graduation event.

In accepting my Internship assignment, I commit to attending and participating in all events, training, and courses associated with this program. I commit to participating in the fall training program and spring in-classroom field work experience, where I will participate in the learning environment and development of learning materials.

By signing this agreement, I commit to attending and participating in all of the above and completing the Faculty Diversity Internship Program.
