For graduation with an Associate in Science (A.S.) Degree with a major in Advanced Transportation Technology-Alternate Fuels:

Minimum Unit Requirements: §Any course that appears on a curriculum guide and the General Education Pattern (Plan
 A) may fulfill both major and general education requirements (Approved by College Curriculum Committee Spring 2012).
 For this degree, complete a minimum of 60 units in courses numbered 1-599. Please note that additional elective units may be required to meet this minimum based upon courses selected to fulfill General Education for the Associate Degree.

ATT-Alt. Fuels Major: 18 - 20 units General Education/A.S.\(\) 19 units

2. Scholarship: Maintain an overall grade point average (GPA) of 2.0 ("C" average) based on all accredited college work applied to the degree, no matter where completed. For this field of concentration, complete each course above with a grade of "C" or better, or "P" if course is graded on a P/NP basis.

- 1. Residence for the Degree: Complete at least 30 units of the required 60 in residence at LBCC, or complete in residence at LBCC at least 20 units within the last 30 units of work applied to the degree.
- Residence for the Field of Concentration: Complete fifty percent (50%) or more of the unit requirements for this field of concentration in residence; this means at least 9-10 units of the required 18-20 must be completed at Long Beach City **College.** Credit earned by exam, where applicable, may be included.
- General Education and Proficiency Requirements: Complete the required A.A./A.S. General Education and Proficiency requirements*, otherwise known as "Plan A". For Plan A requirements, refer to the general catalog or view it online at http://osca.lbcc.edu.
- Complete and submit the degree application form to the Admissions and Records office during your final semester of course work. These forms are available in the Admissions and Records office, or online at http://admissions.lbcc.edu/ Refer to the Schedule of Classes (http://schedule.lbcc.edu) and click the "Important Dates" link to view the actual deadline for each semester.

*The requirements for general education/proficiency and the field of concentration (major) need to be from the same catalog year. This catalog year may be any year between the year of initial enrollment to the present, provided continuous enrollment is maintained throughout. See the catalog for definition of "continuous enrollment".

Career Opportunities

The certificate and degree programs will prepare students for an entry-level position as a light/medium and heavy duty technician in such fields as car, bus, truck, and specialty equipment diagnosis and repair industry. Students prepare for a career in alternative fuel vehicle conversion, maintenance and repair using state-of-the-art-equipment. Computerized engine management is emphasized.

Program Mission and Outcomes

The mission of the Alternative Fuels Program is to provide students with state of the art training in servicing and maintaining Alternative Fueled vehicles in the light/medium and Heavy Duty engine platforms leading to a certificate and/or an AS Degree in Alternative Fuels.

- Safely work on the high voltages present in Electric Vehicles without injury.
- Diagnose and repair computer controlled electric vehicles installations and inspections of systems and their related components.

Understand and comply with regulations regarding installations and inspections of systems and their related components.
