**Career Opportunities**

This Associate Degree is a two-year program leading to the Associate in Science (A.S.) degree. This degree is designed to prepare students for employment in a variety of computer related fields. Students wishing a bachelor's degree (transfer program) should meet with a counselor to discuss how this program fully articulates with Cal State Dominguez Hills' Computer Technology Program. The Certificate of Achievement in Computer Technology is designed to provide students with a broad base of software development skills to prepare them for software engineering and web-development careers. Students gain practical skills in Java and Visual Basic programming and the development of dynamic web services. Students will also study software design, computer usage and computer hardware to ensure broad based competencies.

**Program Mission and Outcomes**

Prepare students for careers in a variety of Computer Technology related fields and enhance skills for those who are currently employed in that area.

**Outcomes:**

- To prepare students for transfer to baccalaureate-granting institutions.
- Provide educational and career opportunities in the computer technology field.
