Students planning to **transfer** to a four-year college or university should refer to the ASSIST web site at <u>www.assist.org</u> and **consult a counselor** before beginning a program of study. Please call 562-938-4561 for the LAC, or 562-938-3920 for PCC to schedule a meeting with a counselor. Students may also wish to visit the Transfer Center on either campus.

For graduation with an Associate in Science (A.S.) Degree with a major in Mathematics:

Minimum Unit Requirements: §Any course that appears on a curriculum guide and the General Education Pattern (Plan A) may fulfill both major and general education requirements (Approved by College Curriculum Committee Spring 2012). For this degree, complete a minimum of 60 units in courses numbered 1-599. Please note that additional elective units may be required to meet this minimum based upon courses selected to fulfill General Education for the Associate Degree.

Mathematics Major 39-44 units
General Education/A.S§ 19 units

- 2. **Scholarship:** Maintain an **overall grade point average (GPA) of 2.0** ("C" average) based on all accredited college work applied to the degree, no matter where completed. For this **field of concentration, complete each course above** with a **grade of "C" or better**, or "P" if course is graded on a P/NP basis.
- 3. **Residence for the Degree:** Complete at least 12 semester units of the required 60 semester units in residence at Long Beach City College in order for the college to grant an Associate of Arts and/or an Associate of Science Degree.
- 4. Residence for the Field of Concentration: Complete fifty percent (50%) or more of the unit requirements for this field of concentration in residence; this means at least 19.5 22 units of the required 39-44 must be completed at Long Beach City College. Credit earned by exam, where applicable, may be included.

Associate Degree requirements continued on the previous page:

Associate Degree requirements continued from the previous page:

- 5. **General Education and Proficiency Requirements:** Complete the required A.A./A.S. General Education and Proficiency requirements\*, otherwise known as "Plan A". For Plan A requirements, refer to the general catalog or view it online at <a href="http://osca.lbcc.edu">http://osca.lbcc.edu</a>.
- Complete and submit the degree application form to the Admissions and Records office during your final semester of
  course work. These forms are available in the Admissions and Records office, or online at <a href="http://admissions.lbcc.edu/">http://admissions.lbcc.edu/</a>.
  Refer to the Schedule of Classes (<a href="http://schedule.lbcc.edu">http://schedule.lbcc.edu</a>) and click the "Important Dates" link to view the actual deadline
  for each semester.

\*The requirements for general education/proficiency and the field of concentration (major) need to be from the same catalog year. This catalog year may be any year between the year of initial enrollment to the present, provided continuous enrollment is maintained throughout. See the catalog for definition of "continuous enrollment".

# **Suggested Sequence of Classes**

This is not an educational plan, as course offerings, student schedules, and circumstances vary. Students must meet all the prerequisites in order to be eligible for the sequence of courses. A suggested full-time sample sequence of courses for the required **60** units to reach an Associate Degree:

	First Semester	Units		Second Semester		Units
†	MATH 60 or 60H	5	†	MATH 70 or 70H		5
†	ENGR 54	3.5	†	PHYS 3A		5.5

	Semester Total	15.5 – 16.5		Semeste	er Total	14.5 - 15.5

## **Career Opportunities**

This field of concentration is designed to recognize competency in mathematics at a postsecondary level. It partially fulfills the requirements for transfer with junior standing for students majoring mathematics and related fields having significant mathematical content. This **Associate Degree** will facilitate transfer for a four-year degree.

## **Program Mission and Outcomes**

The mission of Long Beach City College Mathematics program is to foster an environment that both challenges and supports its students. The primary purposes of the educational program offered by the department are:

- 1. To prepare students for transfer to baccalaureate-granting institutions.
- 2. To nurture an appreciation of the role of mathematics in life.
- 3. To enhance our students' ability to utilize mathematics and critical thinking in their lives.
- 4. To support business and industry in economic development by providing a highly educated workforce.

We will aspire to excellence in teaching, a well-designed curriculum, and a supportive environment for all our students.

The department is committed to continuous revision and improvement of the curriculum, making real world connections, and incorporating technology. The department employs an assortment of assessment techniques, provides a variety of teaching styles, and maintains intervention plans for students who might be having difficulty.

### Outcomes:

- To serve students to meet graduation/GE requirements.
- To serve students for the fulfillment of their own personal goals.
- To serve students to meet career/transfer requirements.

#### Legend

† This course has a prerequisite. Prerequisite courses must be complete with at least a "C" or "P" grade.
