## Section One: Enabling Sharing of Video Feed via Zoom

The first step to begin live streaming Zoom sessions to YouTube requires the enabling of a few specific settings via Zoom itself. Once enabled, additional options will appear only for the session host.

**Step 1:** Go to **Zoom.us** and log into your account.

**Step 2:** Click on **My Account**.

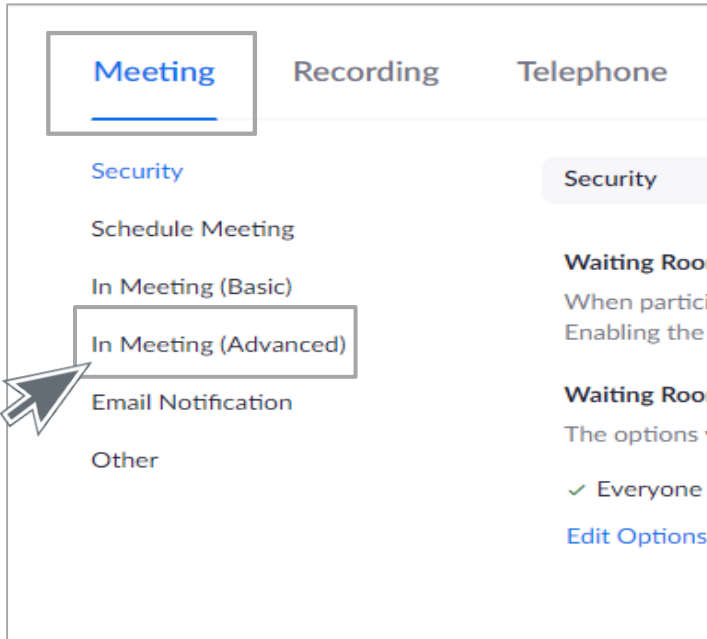

**Step 3:** Go to **Settings** tab.

## Section Two: Selecting Live Stream on a Zoom session

**Step 1:** Schedule a zoom session while following organizational best practices. If you are planning to stream your Zoom meeting to YouTube, we recommend that you schedule the meeting to ensure that you are the meeting host.

**NOTE:** If you join a Zoom session and are made the host to do a livestream, the original organizer and host of that session must have the options enabled to allow live streaming. If not, live streaming will not work.

---

**Step 3:** When clicked, Live on YouTube will now appear. Select “Live on YouTube”

**Step 4:** After selecting “Live on YouTube”, it will ask you to log into your YouTube account. Sign it to your YouTube account.

**Step 5:** After the loading/sync process between Zoom and YouTube, you will now be live streaming to your YouTube channel. Please keep in mind the best video settings and streaming health on YouTube depend on your internet connection and service provider data plans.
