7. Program Goals
8. Program Narrative

Sample: Program Narrative

New Program

This curriculum is designed to prepare students for employment as entry-level network technicians. Students that successfully complete the Entry Network Technician certificate will be able to install, operate and troubleshoot small enterprise networks and perform basic network security. This certificate also prepares students to pass the CISCO ICND-1 examination and the CompTIA Security + examination.

Existing Program

Explain the program modifications

Added (4) Course options

1. BIOL 105 – General Biology – 4 units
 2. BIOL 105H – General Biology Honors – 4 units
