

MED MATH

ROUNDING RULES

Capsules round
to whole

Tablets round to
one-half or whole

Liquid medication, oral or injectable:

Less than 1 mL: Round to the hundredths

1 mL to 10 mL: Round to the tenths

Greater than 10 mL: Round to the whole

Height & weight
round to the
nearest tenth

Only volumes are rounded.
Doses of drugs (mg / grams /
units) are never rounded

IV calculations round to whole
numbers unless told otherwise
in the clinical setting (Eg:
pediatrics, critical care)
