

Vice President Level Planning Groups

The College Planning Council will ensure that by the end of each fall term, four short-term Vice President Level planning groups are established to meet in the spring based on the following charge and membership. A planning group will be established for the Vice President of Academic Affairs; Administrative and Business Services; Economic and Workforce Development; Human Resources; Trades, Technology and Community Learning Campus; and Student Services.

Vice President Level Planning Group Charge

Every four-years each planning group shall:

- Set Vice President-level goals
- Set four-year targets to measure annual progress on the Vice President-level goals.

On an annual basis, each planning group shall:

- Establish two separate meeting dates/times for the planning group to meet after the school and department planning deadlines have passed and prior to the deadline for the Vice President Level Plans.
- Review the previous year's Vice President Level Plan goals, priorities, and metrics.
- Provide presentations on each school-level (and where no school-level exists, department-level) plan to the planning group. These presentations should be focused on the goals, priorities, and metrics within each plan.
- Working with the tri-chairs of the planning group, establish a prioritization process to assist the planning group in determining which priorities (and the resource requests related to the priorities) will be recommended for inclusion in the Vice President Level Plans. This process should include an evaluation of data based on the four-year metrics established at the Vice President level to inform priorities for the coming year. Priorities in the Vice President Level Plan may be synthesized from the school and/or department plans, but a Vice President may determine to also include additional known priorities when they are absent from the department and/or school plans.
- Based on the recommendations from the Vice President Level Planning Group, the Vice President will develop the draft Vice President Level Plan prior to the deadline established by the College Planning Committee. A draft should be completed in time to be sent to the Vice President-Level planning group for a final opportunity for review and recommendations.
- At the conclusion of the Vice President level planning process, the Vice-President, working with their Academic and Classified Senate tri-chairs, will email the final Vice President Level Plan for the coming fiscal year to all departments within their respective areas.

Vice President Level Planning Group Memberships:

Each Vice President Level Planning Group will be organized and tri-chaired by the area Vice President, an Academic Senate Executive member, and a Classified Senate Executive Member appointed at a College Planning Council meeting during the fall term. The tri-chairs will be jointly responsible for setting the two Vice President Level Planning Group meetings and ensuring the progress of the groups' work.
